

## **Nathalie von Siemens**

Dr Nathalie von Siemens concentrates on committee work within the business and civic sectors. She is a member of the supervisory boards of Siemens AG, Siemens Healthineers AG, EssilorLuxottica S.A., Messer Group SE & Co. KGaA, and TÜV Süd AG. She serves as President of the Board of Trustees at Siemens Stiftung and is a member of boards of trustees respectively boards of directors in charitable, not for profit or public organizations such as Berlin Brandenburgische Akademie der Wissenschaften, Physikalisch Technische Bundesanstalt, Helmholtz Fonds e.V. or Hochschule für Philosophie S.J..

From 2013 to 2020, Nathalie von Siemens has been Managing Director and Spokesperson of the Managing Board of Siemens Stiftung. Siemens Stiftung operates in the fields of Development Cooperation, Education, and Culture. In her role as a member of the board, Nathalie has been responsible for matters related to Education and Culture. As part of her operational responsibility, she also served as Spokesperson for the National STEM Forum, Germany.

Before joining Siemens Stiftung, she worked at Siemens AG in the areas of leadership development, corporate strategy, investor relations and corporate communications. In these positions, she focused on portfolio evaluation as basis for Managing Board's decisions on capital allocation and the issue of value-based sustainable corporate development.

Earlier, Nathalie von Siemens worked in the academic sector. Her research covered, among other things, moral philosophy, ancient Greek philosophy, and business ethics. She earned her doctorate in 2005 with a dissertation about the meaning of friendship in the Nicomachean Ethics of Aristotle.

She co-founded a number of companies active in the development of real estate and urban areas with a focus on sustainability from construction to energy supply. Amongst them Flowerpower Energy GmbH, an award winning sustainable energy supplier for micro grid in urban neighborhood development.
