

Maguelonne Chambon

Dr Maguelonne Chambon is Director Research & Development at LNE, in charge of the French metrology system. As technical expert at LNE with almost 20 years of experience, she has been involved in European technical cooperation such as training courses for the development of metrology infrastructure in emerging countries or analysis of metrological needs of industries and societies. Maguelonne Chambon is member of various bodies, including the French Accreditation Body, she is a delegate of the Collège Français de Métrologie, member of the IMEKO Technical Board and member of the organising and the scientific committees of the 'International Metrology Congress'.

She has been part of the EURAMET community for many years and plays an active role in the organization. She is member of the Board of Directors and member of the EMRP and EMPIR Committee. She chairs the STAIR-EMPIR group, a common platform of CEN-CENELEC and EURAMET, and she was chair of the Technical Committee for Interdisciplinary Metrology between 2010 and 2014. Since 1 January 2022, Maguelonne Chambon is Chair of the EMPIR Committee (European Metrology Programme for Innovation and Research), and one of the two Vice-Chairs of EURAMET.
